Frequencies

RC-Systems at 2.4 GHz are strongly recommended. The 2.4 GHz transmitters have to comply with European Standard EN 300328. The maximum equivalent emission power EIRP to be 100 mW peak. The transmitter must be CE marked and show the declaration of conformity.

Complaints and Protests

Only Team Managers are entitled to file a complaint or a protest. The protest fee as stated S/C 4 Volume CIAM General Rules C.20 is € 50. If the protest is upheld the deposit will be returned.

Anti-doping

In case a competitor has to take any of the substances listed on the 2013 WADA Prohibited List for medical treatment he/she must bear a Therapeutic Use Exemption from the FAI, applied for no later than 21 days before the event. All participants of this FAI World Championship and FAI Limited International Contest shall assure their acceptance of the FAI Anti-Doping Rules with their signature on the "Acknowledgement and Agreement" form.

Documents to be presented at registration:

- Valid ID document with photograph
- Proof of payment of entry fee
- Model certificates to be presented during model processing
- One national flag 1 x 1,5 m
- One CD with national anthem (Flags and anthems will be returned after the Closing Ceremony)

Processing

Model aircraft

Three (3) model aircraft are eligible for entry to the FAI World Championship. All model gliders have to comply with the definition in 5.3.1.3 (Volume F3 R/C Soaring Model Aircraft, 2017 edition) and must carry the national identification mark followed by the FAI Licence number plus a model identification code as stated in S/C 4 Volume CIAM General Rules C.11.1 (2017 edition). **Note: The Model Aircraft Specification Certificate is only available as a download from the CIAM website.** FAI Stickers are still available from the FAI office or the design is available as a download from the CIAM website. Models presented for registration which are not properly processed with FAI certificates and stickers, shall be processed by the organizer at a cost of € 8 each.

Winch-equipment

All teams are asked to bring their own test instrument with them. We have planned that these test instruments are first compared with the calibrated test instrument of the organizer. If possible the test instruments of the teams are calibrated, if necessary; if they can't be calibrated for whatever reason the concerned teams get the exact value of the error of measurement of their test instrument. With this information, the teams are able to adjust their winch-equipment themselves.

During the competition 10% of the winches are tested after the high start with the calibrated test instrument of the organizer; the mentioned pilots are drawn.

VISA support

Participants/delegation members who need VISA for entering the EU/Czech Republic, will receive VISA support by the Organizer (e.g. letter of invitation) on request. In this case, please send a list of all persons involved to the Organizer at f3bwc2017@volny.cz and attach a copy of their passports (page with photo and expiry dates as pdf or jpg-file).

Medical care

The immediate medical First Aid to the participants is in the responsibility of the organizer during the official event. The rescue with well-trained first aiders will be onsite. For emergencies, the next hospital is only 12 km away in Jeseník. It is strongly recommended to all competitors that they have insurance which covers them for medical expenses and repatriation in the case of injury.

Insurance

The Organizer will provide third party insurance cover to all participants for accidents involving injury to others or damage to property per the host country's legislation. Participants should provide their own health insurance to cover accident and illness.
